

FOI293 Response

Request

To whom it may concern,

I am contacting you on behalf of our head of psychological therapies in BDCFT.

We are requesting information outlined in the attached form, about the size of your senior clinical leadership workforce, as we are eager to understand the relationship between this and the quality/effectiveness of your services as evaluated by the CQC.

Please be assured we have endeavoured to strip back this request to the bear minimum of what we need as very conscious of the demand on all NHS services at this time. Thank you for your help.

Response

Please see completed spreadsheet and note the following,

- The data provided is accurate to 11th February 2021.
- The figures for Adult and Older Adult populations are representative of the Birmingham and Solihull area.
- The figures for Children & Young People is representative of the Solihull area.
