Policy context

It is essential that registration verification mechanisms are in place for all clinical professions in order that the Trust, and the public, service users and carers, can be satisfied that all professional staff within the Trust are appropriately qualified and registered.

Policy requirement (see Section 2)

Managers must ensure that professional registration of clinical staff is verified as part of the recruitment process and monitored on an on-going basis to ensure

- that the individual is registered to carry out the proposed role
- whether an individual's registration is subject to any current restrictions that might affect the duties proposed
- if the individual has investigations against them about their fitness to practise that the regulatory body has a duty to disclose.

1 INTRODUCTION

1.1 Rationale (Why)

This policy outlines the Trust responsibility for ensuring that professional registration of staff is verified and checked at appointment and on an on-going basis as a legal requirement and in line with NHS Employment Check Standards (April 2019), which form part of the Care Quality Commissions (CQC) annual regulatory framework.

Professional registration is one of the six NHS Employment Check Standards and is intended to protect the public, making sure that those who practice a health profession are doing so safely whilst being registered with the relevant regulatory body.

Clinical professionals must legally be registered with a statutory professional body in order to practice.

1.2 Scope (Where, When, Who)

The policy applies to all clinical professional staff employed by, and working within the Trust on a full and part time basis. It covers health and social care regulatory bodies such as General Medical Council (GMC), Health and Care Professions Council (HCPC), Nursing and Midwifery Council (NMC) and others.

The policy also applies to staff on temporary or short term contracts and staff employed by the Trust, who are seconded to work elsewhere on a recharge or SLA basis.

Agencies have responsibility for ensuring their workers have the correct registration requirements for the role they are undertaking and confirmation will be sought from the employment agency.

Staff can only legally practice if they have the appropriate clinical registration. Clinical registration is applicable to the following staff groups:

Clinical Professions requiring registration	Professional Lead
Doctors/Physician Associates	Medical Director/Associate Medical Director (Workforce)
Psychologists (includes Clinical, Counselling, Educational, Forensic, Health, high and low intensity practitioners).	Chief Psychologist
Nurses Nursing Associates Midwives	Director of Nursing
Pharmacists and Pharmacy Technicians	Director of Pharmacy
Allied Health Professionals (includes Physical therapist, occupational therapists, Speech and language therapist, Dietician, Physiotherapists, Social Workers).	Associate Director of AHPs and Physical Health and Wellbeing

The above list details the main professions requiring professional registration but, should not be seen as exhaustive, as other groups of healthcare professionals become subject to statutory registration, this policy will apply.

1.3 Principles (Beliefs)

The Trust is committed to ensuring service users receive the highest quality care through highly skilled and competent staff. This policy ensures that procedures are in place to check the professional registration status of clinical staff is held and maintained with the appropriate regulatory body.

The four main functions of regulatory bodies are:

- establishing standards of competence, ethics, and conduct
- establishing standards for training
- keeping a register of those who meet the standards
- to deal with registrants who fall short (e.g., by placing conditions on their registration or erasing them from the register).

It is the responsibility of individual staff to ensure that their registration is maintained and this policy outlines the systems that the Trust has in place to ensure that staff have valid registration.

2 POLICY (What)

- 2.1 Individual staff are responsible for ensuring that their professional registration is up to date.
- 2.2 Lapses of registration must be immediately notified to professional leads and may lead to disciplinary action which could lead to suspension without pay
- 2.3 Individual staff have a professional duty to notify the professional lead/line manager of any circumstance (for example technical or financial issues), which might place their individual registration, and the Trust, at risk or lead to suspension from the appropriate register (i.e. police investigation, criminal convictions etc.)
- 2.4 It is important to note, that whilst criminal offences are notified to professional/regulating bodies by the police, the individual maintains responsibility for informing the Trust of any changes in their personal circumstances.
- 2.5 A notification via ESR will notify line managers and the individual when the individual's registration is due for renewal.
- 2.6 Where restrictions to practice have been reported via ESR (Employee Staff Record) via the direct data transfer links with the NMC, HCPC and GMC these will be reported via ESR to the Workforce Information Team who will advise the line managers, professional lead and HR for immediate action.

3 PROCEDURE

- 3.1 If any part of this policy is not adhered to this should always be communicated to the professional lead for the appropriate action.
- 3.2 It is the responsibility of the individual to:
 - Register and maintain professional registration with the appropriate regulatory body (including during periods of long term absence and maternity leave).

- Comply with regulatory body code of professional conduct and/or/standards
- Inform statutory regulatory body of any changes to their personal details, i.e. name, address so that records are accurate and up to date and that renewal advice and information from regulatory body is received.
- Notify the manager immediately if there are any issues which may result in failure of renew professional restriction or practice restrictions
- be aware when registration is due for renewal and pay required registration fee in timely manner.
- be aware that they are unable to practice without a valid registration
- be aware that failure to obtain or maintain registration will lead to suspension (on nil pay) and may result disciplinary action including dismissal.

3.3 It is the responsibility of the recruitment team*

Prior to Appointment – verify an individual's professional registration in line with the Recruitment and Selection policy, ensuring that the following three areas are verified before an unconditional offer of employment can be made:

- that the applicant is registered to carry out the proposed role
- whether the registration is subject to any current restrictions that might affect the duties proposed
- if the applicant has investigations against them about their fitness to practice that the regulatory body has a duty to disclose.

The recruitment team will ensure that new appointee's registration number/pin will be entered onto ESR (Electronic Staff Record) together with the expiry/renewal date for monitoring purposes.

*In the case of 'bank workers' the line manager will be the TSS manager

Regular Checks/Monitoring – registration checks are undertaken via ESR ensuring that individuals remain safe to practice.

- To monitor registration of staff on a regular basis
- To take appropriate action where registration has not been verified or restrictions apply
- To seek advice from professional lead regarding any issues that may impact on individual's registration e.g. conduct and follow appropriate steps to report this in line with professional body and Trust requirements.
- For NMC, HCPC and GMC there is a direct link via ESR which will notify the Workforce Information Team if there is information missing or if there is a restriction or issue.
- For other professional groups, the Trust via HR receive letters indicating if there are any restrictions or issues with their registration we need to be aware of.

- It is the responsibility of the Professional lead: To provide professional advice and leadership to line managers regarding professional registration requirements and regulatory body requirements.
- To ensure appropriate steps are taken to inform regulatory bodies regarding any issues that may impact on individual's registration e.g. conduct
- To provide advice and guidance to staff regarding professional registration as required.

3.5 It is the responsibility of the Workforce Information team to ensure:

- that monitoring data is produced in a timely manner.
- that notification of restrictions or lapses letters are sent to individuals, line managers and leads as per this policy in a timely manner
- any queries regarding registration status is forwarded to line manager, professional leads or HR in a timely manner to allow resolution.
- To seek clarification with employees and line manager if there are any issues regarding registration details held.

3.6 Regular Checks/Monitoring

- Exception reports will also be generated on a monthly basis to highlight any employees where a registration number/pin has not been entered into ESR for a member of staff requiring one (see flow chart, appendix 5)
- Individual staff members will be required to renew their registration directly with the appropriate body.

3.7 Registration Lapses/Restrictions

- Where an individual's registration has lapsed the line manager and relevant professional lead will suspend them from duty on nil pay with immediate effect.
- The line manager will be responsible for ensuring that payroll is notified of the suspension on nil pay.
- The individual will be invited to attend a formal meeting/hearing to clarify why their registration has not been maintained.
- Disciplinary action may be taken where an individual fails to renew their registration or knowingly practices without registration or practices where restrictions apply to their practice.

Re: Lapse of Registration or Restriction to Practice – Suspension

This letter follows the meeting held today to discuss the decision to suspend you from work due to the lapse of your Professional Registration or Professional Registration Restriction placed on your practice - delete as appropriate].

Insert appropriate paragraph below:

Lapsed Registration (insert paragraph below)

You are required to take immediate steps to renew your registration in line with (*name of governing body*) requirements and notify myself immediately.

Professional Registration Restrictions (insert paragraph below)

The Trust has been advised that the following restrictions have been placed on your practice:

[insert restrictions as listed by professional body]

Maintaining your registration is a legal and professional requirement of your role as [???????], without which you cannot fulfil terms of your contract with the Trust. Therefore, after careful consideration the decision has been made to suspend you from duty on nil pay in line with the professional registration policy (HR05).

During the period of your suspension you should be available to attend either an investigatory interview or disciplinary hearing. Arrangements are being made for the investigatory interview to take place and full details will be forwarded to you as soon as possible. I remind you again of your right to be accompanied by your *Trade Union/Professional Organisation Representative or a Work Colleague*).

During the period of your suspension you must not contact employees of the Trust and / or attend Trust premises (you can meet with your trade union representative). Your Trust contact during this time will be xxx for matters relating to your role, annual leave or sickness.

If you require any annual leave during your suspension, this must be discussed in line with normal procedure with xxx. Any annual leave already booked that falls within you
