

FOI010 Response

Request

Dear colleagues,

My name is Oleg and I work in a medium secure NHS psychiatric service as part of the physical health team. I am looking to optimise our Vitamin D monitoring and I would like to see how other mental health trusts approach this. I undertook an audit and, as part of this, wondered if similar challenges were being faced elsewhere and if there was any way to share the learning for patient benefit.

I would be very grateful if you were able to send me any Vitamin D monitoring audits or Vitamin D monitoring policies for your organisation that you may have access to.

Response

Dear Oleg,

Please find the Trust's vitamin D monitoring audits attached as a PDF.

Please note that currently the Trust do not have any policies in relation to Vitamin D monitoring however, an action from a recent audit was to consider whether this should be included in the new revision of the Trust Physical Health policy which is currently being reviewed.
