

FOI 0226/2021 Response

Request

I am requesting that within the dates of 01/03/2020 - 01/11/2021 can you supply the total number of deaths from COVID-19 alone, not within 28 days of a positive test.

Hi if possible could I have for both inpatient and outpatient if the information is available. But keep the numbers separate if that is at all possible.

If this is not possible then just the inpatient numbers will be fine thank you.

Response

From 01/03/2020 - 01/11/2021 there have been Nil (0) inpatient Covid-19 deaths within the Trust.

Please note that the Trust cannot confirm for our community patients, the number of deaths that have been attributed to solely contracting the Covid-19 virus.

This is because we are a Mental Health Trust and as our patients are community based, we cannot explicitly confirm for all community patients that have died, that their death is a direct result of contracting Covid-19 or due to comorbidities.
