

## **FOI 0270/2022 Response**

**1. How many Birmingham and Solihull residents have you treated for mental health? Please provide figures for each year since 2011.**

**\*Treated is in reference to the number of patients that had access to services**

**2. How many of them (as totals) are BAME, under 40, women, veterans, Muslims?**

**3. How many are in permanent full-time employment?**

**4. How many are on fixed-term contracts or low-paid (less than £25k salary)?**

Please see attached spread sheet and note the following:

- Data has been provided for the number of Birmingham and Solihull residents who have accessed mental health services in Birmingham and Solihull Mental health trust?
- Data has been provided from 2013 to 8<sup>th</sup> February 2022
- As a patient's referral or spell can span across multiple years, they are counted for each time period.
- A patient's age is determined at their age at the beginning of the year
- The Trust is unable to provide data prior to 2013 due to data quality issues that prevent reliability of accuracy levels
- The Trust does not collect data on type of employment and salary. This therefore means that we are unable to provide a response to questions 3 and 4.
