Is this contract annually renewed? - Yes/No

Do you currently have plans to replace this system? - Yes/No

System definition:

Patient Portal / Patient Access Portal – It is a secure online portal/website to access personal health information. The online tool allows patients to log in and access elements of their electronic record (appointments, test results, billing, prescriptions etc.) or communicate with their health professionals.

Please note that the Trust does not have an online portal/website to access personal health information.
