FOI064 Response

Request

As part of the network's role in supporting and developing opportunities to be involved in dementia research, we are in the process of trying to establish how many clients with any type of Dementia diagnosis have been supported by BSMHFT for the years 2018/2019 and 2019/2020.

Within this request could I please have any information/figures of patients who have been treated as well as those who have been discharged during this time frame's given above.

Response

Please see table below and note the following,

- The data provided is in line with patients who have been diagnosed with the ICD10 classification of Dementia.

- The figures provided for 2020 includes data that is accurate to 21/07/2020.

- The Trust has defined "treated" as patients that have either attended an appointment or had an inpatient admission during the year.

- The Trust has defined "discharged" as patients that have been discharged from all Trust services during the year.

Year	Patients Treated	Patients Discharged
2018	5868	2146
2019	5759	2040
2020	3025	1156
