Request

Hello,

I would like to request, under the freedom of information act, the following information from your Trust:

- 1) The total number of people in contact with adult mental health services with accommodation statuses that fall under the 'HM' code bracket.

For clarity I'm referring to the accommodation status codes specified in M003010 (as seen in the Data Set Specification (Amd 43/2019) file). Within that file, I'm referring to the 'HM' codes listed below:

HM01	Rough sleeper
HM02	Squatting
HM03	Night shelter/emergency hostel/Direct access hostel (temporary accommodation accepting self referrals, no waiting list and relatively frequent vacancies)
HM04	Sofa surfing (sleeps on different friends floor each night)
HM05	Placed in temporary accommodation by Local Authority (including Homelessness resettlement service) e.g. Bed and Breakfast accommodation
HM06	Staying with friends/family as a short term guest
HM07	Other homeless

If other codes are being used by the Trust to record the above accommodation statuses, please could you supply me with data for those.

Please could you provide the data in a monthly breakdown for the following years:

01 January 2019 to 31 December 2019; 01 January 2020 to 31 December 2020; 01 January 2021 to latest available data.

Please could you provide the information in the form of an .csv

*Clarification sought from Requester to define "contact with" and if they would like the accommodation status as it was in that month or the current accommodation status?

The Requester has confirmed the following:

- 'contact with" is in reference to attended contact in the month
- Requester would like the accommodation status as it was in that month.

Response

Please see attached spreadsheet and note that the data for 2021 has been provided from Jan – June.
