

## **FOI200 Response**

### **Request**

To whom it may concern,

I was wondering if I could gain access to your Falls Policy, New Admissions Policy, Manual Handling Policy and Risk Management Policy please?

### **Response**

Please find attached a zip folder containing the requested policies and note the following,

- A Section 40 exemption has been applied which therefore means that the policy authors name has been removed as it pertains to personal information.
- The Risk Management Policy is due for review in December 2020, however this is subject to change in the occurrence of events which could either escalate or delay ratification of the policy.
