

FOI217 Response Request

Hi,

Thank you for the response, please can you clarify if this is the Trusts full contract reg? also some of the contracts have to end date or CPV codes in the columns please can you provide this.

The contact details I require is the person responsible for the contract reg, please can you provide me with the information or at the least a job title

Response

The contracts register is complete in the respects of capturing the relevant and current contract data however, the register is a live document and therefore is ever changing and updated naturally for any changes in contractual arrangements. This relates to available extensions and variations.

As stated in the previous response (FOI027 and FOI191) due to the current health crisis Covid-19, and its unprecedented demands and pressures upon the Trust, there are some elements of the contracts register that are not fully up to date.

Please note that some of contracts may not have a CPV code as I may have been procured via a framework.

Details of the individual who manages the contact register cannot be provided and withheld under Section 40. This is because the requested data pertains to personal information such as names and contact details.

However, I can confirm that all staff members within the Procurement Team are responsible for contracts register
