

STAFF FEEDBACK QUESTIONNAIRE

Birmingham and Solihull Mental Health NHS Foundation Trust

Overview

The 2020 Stonewall Staff Feedback Questionnaire received more than 109,928 responses from LGBT and non-LGBT people across all areas of the UK. Your employees' responses are shown below.

- Responses from groups of ten or fewer are removed to protect respondents' confidentiality.
- Statistics restricted for confidentiality are shown with an asterisk.
- We have broken out useful sub-groups of analysis to help you better understand your workforce and their experiences.
- You can compare the experiences of your workforce to other employees in the health and social care sector and in your region.

Terms describing LGBT people

All respondents to the Staff Feedback Questionnaire were asked questions about their gender identity and sexual orientation. Some respondents answered the survey in Welsh, so the questions and responses are presented bilingually.

On future reference, Welsh language responses will be grouped for analysis with responses according to the English language translation as noted above.

Based on responses to the above questions, we have categorised respondents according to their LGBT identities.

Respondents	Report definition
Bi	Bi for sexual orientation
Lesbian & gay	Gay or lesbian for sexual orientation
LGBT	Non-binary for gender and/or Yes for trans identity and/or Bi, or gay or lesbian for sexual orientation
Non-LGBT	Male or female for gender identity No for trans identity and Heterosexual/straight for sexual orientation
Non-trans	No for trans identity
Trans & non-binary	Non-binary for gender and/or Yes for trans identity

Please consult our [guide on diversity monitoring](#) for best practice wording when conducting your own monitoring and surveys.

Comparisons between respondents

This typically presents two tables of responses for each question. The first table allows you to compare responses from Birmingham and Solihull Mental Health NHS Foundation Trust to other organisations. The second table allows you to compare responses from within your organisation between different groups of employees. In a few cases, we have omitted the second table, for instance where a question is only asked to non-LGBT respondents.

Your respondents

The number of respondents in your organisation broken down based on different identities.

Where the number of respondents to a question is ten or fewer, we have replace the value with an asterisk to protect employee confidentiality.

Disclosure of LGBT identities

Lesbian & gay, bi, and trans respondents were asked if they feel comfortable to disclose their sexual orientation and/or gender identity at work. Respondents were asked to specify if they felt comfortable talking to colleagues (in general), to managers or senior managers, and to customer, clients or service users.

Discrimination

Bullying and harassment

LGBT respondents were asked four questions on experiencing and reporting discrimination based on their gender identity or sexual orientation: -

- If they agree that they know how to report
- If they agree that they would feel confident to report, in the event an incident occurred
- Whether an incident occurred
- If they reported an incident occurring, whether they did report

Most responses below combine responses based on gender identity and sexual orientation. In those cases, respondents who are both trans and bi, lesbian or gay, are accorded the lower of their two responses. For instance, a bi and trans employee who agrees they know how to report bullying & harassment based on sexual orientation, but not based on gender identities, would be recorded as 'not agreeing' with this question.

Barriers to progression

LGBT respondents were asked about whether their gender identity or sexual orientation had created barriers to progression within their workplace.

Most responses below combine responses based on gender identity and sexual orientation. In those cases, respondents who are both trans, and bi, lesbian or gay, are accorded the lower of their two responses. For instance, a trans lesbian employee, who agrees she knows how to report bullying & harassment based on sexual orientation, but not based on gender identities, would be recorded as 'not agreeing' with this question.

Monitoring

LGB employees were asked if they agree that they understand why their employer monitors their sexual orientation. Trans employees were asked the same about their gender identity.

Employees were then asked whether they agree they are confident to disclose their identities.

Where respondents are LGB and trans, we included the lower of their two responses about gender identity and sexual orientation monitoring.

I agree that I ... my sexual orientation and/or gender identity	Birmingham and Solihull Mental	All entrants	West Midlands entrants	Health and social care sector
