

FOI323 Response

Request

I'm completing an audit and I am unable to find the document I need from the trust intranet. I think the document is called "physical health assessment and management policy" and would be from January 2017.

Could you please send me this document and tell me the time period that this policy applied for?

If this policy did *not* apply for the period covering March- June 2020, could you send me the policy that did apply during this time period.

Many thanks in advance for your help,

Response

Please note that the Physical Health Assessment & Management Policy which covered the time period of March 2020- 2020 June has been stood down and replaced with an updated version.

The historic Physical Health Assessment & Management Policy and guidelines that supplemented the policy has been included within the correspondence email.

In addition to this, the latest version of the Trust Physical Health Assessment Policy has also been included.

Please be aware that an exemption section 40 has been applied to the attachments, this therefore means that the Policy Lead's name as well as the Authors name and Executive Director's signature has been removed as it pertains to personal information.
