

FOI331 Response

Request

Dear Sir/Madam,

I am submitting the following request under the Freedom of Information Act.

1. Do you currently, or have you ever had a clinical risk assessment/management/minimisation policy specifically focused on self-harm? If so, please supply the current policy (or past policy if no longer in use).
2. Do you currently, or have you ever had a clinical risk assessment/management/minimisation policy specifically focused on people with a diagnosis of personality disorder? If so, please supply the current policy (or past policy if no longer in use).
3. Please supply current clinical risk assessment/management policies for all services (adult mental health, child and young person services, etc)

Response

- 1. Do you currently, or have you ever had a clinical risk assessment/management/minimisation policy specifically focused on self-harm? If so, please supply the current policy (or past policy if no longer in use).**

The Trust does not have a historic or current clinical risk assessment/management/minimisation policy specifically focused on self-harm.

- 2. Do you currently, or have you ever had a clinical risk assessment/management/minimisation policy specifically focused on people with a diagnosis of personality disorder? If so, please supply the current policy (or past policy if no longer in use).**

The Trust does not have a historic or current clinical risk assessment/management/minimisation policy specifically focused on people with a diagnosis of personality disorder.

- 3. Please supply current clinical risk assessment/management policies for all services (adult mental health, child and young person services, etc)**

Please find attached the current Trust wide Clinical Risk Assessment Policy and note the following:

- Exemption Section 40 has been applied to the policy, this therefore means that the Executive Director, Policy Lead and Policy Authors' name has been removed as it pertains to personal information.
- The Trust is currently developing a risk minimisation guidance that will focus on personality disorder and self-harm.
