

FOI 0105/2023 Response

Request

Under the Freedom of Information Act 2000 I am writing to request the following information in relation to waiting lists for Adults ADHD and ASD referrals. I am seeking:

A copy of the latest correspondence stating expected numbers and waiting times for patients who are referred to secondary care to receive their first appointment; or,

A copy of any emails stating the expected number and waiting times for patients who are referred to secondary care to receive their first appointment.

Clarification: Requester would like current wait times.

Response

Based on capacity to complete assessments over the last financial year 2022-23, the expected wait for assessment for new referrals is 298.75 weeks.
