FOI 022/2023 Response

Request

Regarding the August and November 2022 'OCD Pathway Review and NICE Audit' planning sessions, can you provide the audit – and all other related material – carried out by the trust.

Clarification: Some of the 'related material' may include; audits (NICE), referral pathway information, but there may be other 'related material' that I am unaware of since I do not work at the trust. So, can you provide all related material as requested.

Response

Please see the below for the requested information and note:

- The Trust has provided an insert of the discussions taken place for NICE Guideline Review CG31 – OCD and Body Dysmorphia Disorder which has been captured within The Clinical Effectiveness Advisory Group CEAG) meeting on Thursday 30th June 2022.

- The full minutes have not been disclosed as it contains details around services, service delivery and audits for other areas of the Trust (so not OCD related) and therefore not related to your request for information.

- The listed actions within the minute extract are currently being monitored through the Trust's internal review process.

- Staff members names have been redacted as we do not routinely release staff personal details. The Trust have applied an exemption Section 40 of the Freedom of Information Request.

| 1. | NICE Guideline Review (High Priority) **CG31 – OCD and Body Dysmorphia Disorder** | XXXX   presented the review for the NICE OCD/BDD Guideline. Overall compliance was as follows: |
