Response

Please see the table below and note the following:

- The data relates to distinct count of service users with an eating disorder diagnosis discharged from inpatients by year and BMI recorded at discharge.
- Where the same service user has had more than one discharge in a year, only one discharge is counted against that year.
- Some service users may also be represented in the community data below if they had a community referral discharged in that same year.

	a) <15	b) 15-15.99	c) 16-16.99	d) 17-18.5	e) > 18.5	f) Not Recorded	Total
