

## **FOI 0330/2023 Response**

### **Request**

We are a small ambulance provider specialising in transporting mental health patients. We have a choice of secure cell ambulances or ambulance cars for lower risk patients.

Our request is the following: what is the framework for patient transport providers in the area and how do we access the framework?

### **Response**

Please note that the procurement function for BSMHFT is now provided by the Birmingham and Solihull (BSOL) Procurement Collaborative.

Please redirect your request to (BSOL) Procurement Collaborative on the following contact:
