

FOI 088/2023 Response

Request

***Follow-up request to FOI 015/2023

Dear FOI team,

Thank you very much for responding to the FOI request. I just had one quick follow-up question - is there any chance you could shed some light on the answer to question **5c** - I am trying to understand why so much money is still owed to the trust from trials they conducted - is the NHS trust late to bill the clinical trial? or are there other reasons?

Response

Please note that the response provided for 5c relates to work that is forecast. For example, funding for future visits/activities related to the clinical trial participation.
