FOI 089/2022 Response

System definitions:

Laboratory Information Management System (LIMS) – Software that allows you to effectively manage pathology testing and reporting. By using a LIMS, your lab can automate workflows, integrate instruments, and manage samples and associated information.

Oncology – An Oncology Information Management solution supports the multidisciplinary teams involved in the care of patients with cancer.

Clinical Noting - A clinical noting documentation system that enables the electronic recording, storage and retrieval recording of patient medical records related to a patient's diagnosis and care during an inpatient hospital visit or encounter.

1.   Could you please provide responses to the following questions in relation to Imaging/ Radiology within the Trust / Health Board. The name and email address of:

The Clinical Lead that is responsible for Imaging

The General Manager that is responsible for Imaging

The Service Manager that is responsible for Imaging

-   No department – N/A

-   Please note that the Trust explicitly provides mental health services and do not provide physical health care services like an Acute Trust.

2.   Can you please forward responses to the questions below regarding your trust's LIMS, Oncology, and Clinical Noting systems.
Please enter 'No System Installed' or 'No Department' under supplier name if your trust does not use the system or have the department:

2A. System type – Laboratory Information Management System

-   No department – N/A

-   Please note that the Trust explicitly provides mental health services and do not provide physical health care services like an Acute Trust.

Supplier name
