

FOI 0299/2023 Response

Request

Follow up to FOI 0259/2023

Thank you for the information you have supplied. A supplementary question I have is: whether you have any Positive Action strategies in place, concerning any Pakistani under-representation in the workforce or on your governance Board.

Response

The Trust uses a data informed approach in working towards a representative workforce.

This therefore means that at different points in time the Trust will adapt our positive action activities such as focussed engagement with particular communities, including those from Pakistani representation.
