

Physician Associates in Mental Health Services (PAMHS): An Evaluation

## Research Study

---

### **Physician Associates in Mental Health Services (PAMHS): A realist evaluation of the feasibility, sustainability and effectiveness of deploying physician associates across English mental health services**

---

- Have you, or someone you care for, received mental health care?
- Are you a Physician Associate, or do you work alongside one?
- Would you like to share your views about the physician associate role?

If you have answered YES to any of these questions we would like to hear from you!

We are conducting interviews and focus groups to explore the physician associate role in mental health services. We would like to hear about your experience on this topic. Information generated during the study will be used to help shape national practice and policy in this area.

You will be offered a £20 gift voucher to compensate you for time.
