

FOI 0556/2024 Response

I have a further couple of questions relating to this request – FOI 0486/2024

I have reached out to almost every NHS trust asking similar questions. You have confirmed that an audit took place between November 2016 and January 2017 undertaken by Livingstone Technologies.

1. Was the audit done before the Trust migrated to M365/The cloud to understand what the Trust's requirements were?

Yes

2. When did the trust initially begin migrating to M365/The cloud?

April 2019
