

FOI 0412 2024 Response

Clarification: CSTF stands for Core Skills Training Framework; and ELS stands for Emergency Life Support Course.

For ELS Course during August 2024.

I would like to confirm if this ELS course covers below:

1. Covers UK Resuscitation Guidelines

Yes, governance around courses is looked at quarterly at the resus committee meetings where training content is discussed.

2. Aligned with CSTF

Yes, our external providers also have oversight of content to ensure it aligns with both Resuscitation Council UK (RCUK) and CSTF frameworks.

3. Was this a Practical / face-to-face or an online course?

Prerequisite e-learning is required prior to face-to-face training.

For delegates to book onto the face to face element they will need to provide the bookings team with their certificate.

They will then be booked onto a face-to-face course, where their competence is assessed through scenario based A-E assessment.
