

## **FOI 006 2025 Response**

### **Request**

I work for Concept Management in Bolton. We specialise in the collection and disposal of redundant IT equipment. We currently have contracts in place with other NHS sites, Council sites as well as Police forces and many businesses and education authorities.

I was hoping to find out who works in Information Governance at your site and who you currently use to dispose of your redundant IT equipment.

### **Response**

The Information Governance Team consists of the following staffing, note that we are unable to provide their names as we do not release personal information for those below a Band 8C role:

- The Head of Information Governance
- Information Governance Officer
- Information Governance & Freedom of Information (FOI) Administrator

The Trusts redundant ICT equipment is disposed by Restore Technologies
