

## **FOI 0139/2025 Response**

### **Request**

Under the Freedom of Information Act 2000, I am formally requesting the following information regarding the Band 5 Health Instructor secondment created within the Dementia & Frailty service (2024–2025):

A copy of the Agenda for Change job evaluation documentation or matching outcome used to support the creation and banding of this post.

The job description submitted as part of the evaluation process, including whether this role was created to replace a previously existing Band 6 position.

The job evaluation scoring profile, banding rationale, or factor-based justification used to determine that this post should be Band 5 rather than Band 4.

### **Response**

We have reviewed our records and cannot identify any files in relation to a job evaluation process for this secondment.

If you can provide further information, we are happy to do an additional search.
