

## **FOI 0317/2025 Response**

**1. The most up to date annual cybersecurity budget that has been allocated to your NHS trust.**

Please note that there is no specific cyber security budget, this is because Cybersecurity is part of the overall ICT budget.

**2. A breakdown of the trust's annual cybersecurity budget since 2019.**

N/A – please refer to the response provided for Q1.

**3. How is your annual cybersecurity budget spent in the latest up to date annual figure? Please include: percentage going towards cybersecurity training for employees, towards technology investments, towards employee resources for cybersecurity team.**

N/A – please refer to the response provided for Q1.

**4. The number of employees working in your NHS Trust.**

**Staff in Post 30 Sep 25**

<b>Headcount</b>	<b>Sum of FTE</b>
5609	5173.73174

**5. The number of employed, full time members of staff which make up the NHS Trust's cyber / info security team.**

The Trust does not have a dedicated cyber / info security team.

Cyber/info security is routinely carried out by the ICT Team as part of their established role.

They are supported by a dedicated officer to oversee additional checks and safeguards for robust security.

**6. Number of hours of cybersecurity training employees at the Trust are required to undertake each year.**

All employees are required to complete every section of the mandatory Information Governance training annually, including Cyber Security components.

Completion is assessed by content, not by training hours.

**7. Has the Trust paid any ransom demands to cybercriminals in the last five years? If yes, how much was paid?**

No

**8. Has the Trust had any patient records compromised / stolen by cybercriminals in the last five years? If yes, how many?**

No
