

FOI 0390/2025 Response

Question									
1. For each of the elements below, please provide details about your cloud provider:	Main provider	Total annual spend 2025/2026 (£)	Contract end date	Additional notes					
Data storage	Azure	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
Networking	Azure	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
Back-up and archive	Azure	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
Application databases	Azure	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
Big Data analytics databases	N/A	N/A	N/A						
Email	Microsoft	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
2. For each of the network supply systems listed below, please provide the requested details:	Main supplier	Total annual spend 2025/2026 (£)	Contract end date	Additional notes					
Mobile telecoms	EE	£23,912.42	May-09						
Data network (broadband)	Virgin Media	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	Mixed						
DEFINITION: Broadband is the actual internet connection afforded by your internet service provider (ISP), which you can access directly via a LAN or ethernet connection between your modem and device									
WiFi (hardware)	Kingsfield	£105,275	Mar-28						
DEFINITION: WiFi is a wireless connection between multiple devices and your router, and just one of the ways you can access the internet									
CoIN (if applicable) - Community of Interest Network	N/A	N/A	N/A						
WAN (Wide Area Network)	Virgin Media	£342,188.26	Mixed						
DEFINITION: WANs connect users and applications in geographically dispersed locations									
LAN (Local Area Network)	H3C	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	Mixed						
DEFINITION: LANs connect users and applications in close geographical proximity (same building)									
VPN provider	N/A	N/A	N/A						
Other (please specify)									
3. Please supply the following details regarding your servers:	Main supplier	Total annual spend 2025/2026 (£)	Contract end date	Additional notes					
	Dell	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
4. For each element of IT infrastructure below, please provide the requested details:	Main provider	Total annual spend 2025/2026 (£)	Contract end date	Additional notes					
Desktop management	Microsoft	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
Networking	H3C	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	Mixed rolling contracts and support					
Data Centre: hardware	Dell	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	Mixed rolling contracts and support					
Server management	Mixed	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
IT/cyber security support supplier?	Mixed	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	We are unable to provide a response. This is because we do not record the requested information separately for these elements.						
5a: What percentage of your servers are virtualised?	% Virtualised	Main supplier	Additional notes						
DEFINITION: A virtual server re-creates the functionality of a dedicated physical server. It exists transparently to users as a partitioned space inside a physical server.	85	Vmware							
5b: In relation to your trust's virtual servers please provide the requested information:	Number of servers	Owned or Leased	Average age of servers	Main supplier	Annual spend 2025/2026 (£)	Additional notes			
	36	Owned	3-4 Years	Dell	We are unable to provide a response. This is because we do not record the requested information separately for these elements.				
6a: Does your trust have any virtualised desktops?	Main product	Main Supplier	Total annual spend 2025/2026 (£)	Number of virtual desktops	Contract end date	Additional notes			
DEFINITION: A virtual desktop is a preconfigured image of operating systems and applications in which the desktop environment is separated from the physical device used to access it. Users can access their virtual desktops remotely over a network.	Vmware	Broadcom	We are unable to provide a response. This is because we do not record the requested information separately for these elements.	249	30/06/2027				
6b: If your organisation does not have virtualised desktops, are you planning to implement any within the next two years?	Yes/No	Preferred supplier	Expected number	Additional notes					
Where you plan to implement new virtualised desktops, please provide details as requested	No	N/A	N/A	N/A					
7: Please outline your trust's WiFi coverage for each element listed below	Patient WiFi coverage	Staff WiFi coverage	Additional notes						
Community wide (e.g. CoIN - Community of Interest Network)	Not Detailed	Not Detailed							
Enterprise wide (whole campus)	Not Detailed	Not Detailed							
Main building only	Not Detailed	Not Detailed							
Sections of building(s) only	Not Detailed	Not Detailed							
Mobile phone signal enabled through WiFi	Not Detailed	Not Detailed							
No wireless networks are used in the trust	Not Detailed	Not Detailed
